

NEW

deb restore plus[®]

A mild, pleasant-to-use 'super-hydrating' after work conditioning cream for DRY skin.

Usage: Apply to clean, dry skin at the end of each work period to moisturise the skin whilst natural oils are being replenished

Performance Guide: Suitable for dry, sore or chapped skin; or work environments where dry skin is a risk

Features:

- Contains high level of Urea to hydrate the skin and help restore its Urea natural balance
- Contains Allantoin to provide temporary protection against cut or chapped skin and stimulates the growth of new and healthy tissue
- Neutral pH ensures compatibility with the skin reduces the risk of possible irritation
- Added Dicaprylyl Carbonate, an excellent 'dry-feel' emollient, helps prevent greasy skin
- Added Glycerine, a highly effective humectant, moisturises the skin and helps prevent dryness
- Ointment based for easy application and leaving a non-greasy after-feel
- Economical-in-use as only a small amount is required to provide effective skin conditioning

Product Testing:

- *Corneometer*[®] tests show that using 4 x 1ml of product per day for a week in a normal working environment, increased skin moisture by approximately 60%
- Extensive market testing for performance and acceptability
- Dermatologically tested using the industry recognised "48hr human patch testing for primary skin irritation" method
- Not tested on animals
